

EVF HOW Plus course on Lymphedema Treatment

15-16 November 2019

Aims of the course:

- learn and improve your **KNOWLEDGE** about primary and secondary lymphedema
- learn about stationary and ambulatory lymphedema treatment
- learn about the **PRACTICAL ASPECTS** of compression treatment
- learn about lipoedema and liposuction treatment in local tumescent anaesthesia
- see a number of patients with different stages of lymphedema and practice your knowledge
- discuss **YOUR QUESTIONS** with the **EXPERT**

Note! The learner will be given a certificate of attendance of the course, which in no way ensures or certifies any competence to perform the procedure. EVF does not have that authority.
