

EVM

Expert Venous management

November 5 – 6, 2021 | Virtual Meeting

Welcome to the **Expert Venous Management** (EVM) family. Over the last 10 years some of you have been part of our original EVM meetings which up until 2020 were held in person at Englewood Hospital NJ USA. Since COVID, EVM virtual has exceeded our expectations. Our interactive, advanced case-based format works well in the virtual space. EVM EU 2020 and EVM US 2021 have engaged hundreds of vein specialists and vein industry from around the world. Next up, EVM EUR 2021. It is an interactive meeting. Attendee input is crucial. This is why we need you.

EVM IS COMING TO
EUROPE.

SAME FORMAT,
DIFFERENT FLAVOR

Attendee Input is Crucial

The meeting allows attendees to ask questions in real time. Attendees can raise their hand or submit questions. Faculty can be interrupted at any time. Many questions are posed during case presentations for immediate attendee feedback. EVM's informal format: no jackets, no ties, no attitude still holds.

COURSE DETAILS

This course takes venous education to the next level.

There are no didactic lectures, only case presentations, difficult cases, cases that went wrong, etc.

- Basic knowledge of venous disease required.
- Attendees will learn the advanced management of venous disease.
- Attendees may submit cases prior to course and best ones are selected by faculty to discuss.
- Attendees are active participants.
- Small Faculty-Attendee Ratio = Lots of faculty interaction.

TARGET AUDIENCE

Expert Venous Management will be of value to vascular surgeons, interventional radiologists, interventional cardiologists, cardiologists, phlebologists, general surgeons and other medical professionals currently treating venous disease and want to advance to the next level. This is a non-CME activity. In continuing the theme of a non-traditional meeting, this event will allow industry to fully participate in the interactive discussions. We all learn together. We all have fun.
